

HEAD AND HEARING PROTECTION

THERMOACTIVE BALACLAVA

PRODUCT FEATURES

MATERIAL: 72% polyamide, 21% polyester, 7% elastane. Special weave absorbs moisture and removes it outside. Weave with increased density provides thermal protection. Flat stitches increase comfort of use. Perfectly fits the head providing very good thermal insulation, at the same time protecting against helmet sliding. Can be used with the thermoactive t-shirt L41205 and thermoactive underpants L41206. STANDARD: EN ISO 13688.
