

PROTECTIVE GLOVES

LATEX-COATED PROTECTIVE GLOVES

LATEX

EN 388
3143x

PRODUCT FEATURES

MATERIAL: polyester, cotton, latex. Coated with a thick layer of porous latex, providing resistance to abrasion and tearing as well as increasing adhesion. Additional thick latex surface on the top of the glove protects the metacarpal bones from abrasion. Finished with a drawstring. STANDARD: EN 420, EN 388.
