

PROTECTIVE GLOVES

GLOVES PROTECTING FROM CHAINSAW CUTTING

EN 388

2122

EN 381-7

Klasa 1

Wzór A

PRODUCT FEATURES

MATERIAL: cowhide, polyamide. Cut-proof insert on the left glove top prevents cutting with the chainsaw moving at 20 m/s speed. Grip made from a single piece of leather increases the glove's durability. Additional leather reinforcement on the grip prevents rapid abrasion. Finished with a drawstring. Application: works with a chainsaw use. **IMPORTANT:** Only the left glove on its upper part has the above-mentioned protection features from chainsaw cutting. The cut-proof insert does not protect the left hand thumb and fingers. **STANDARD:** EN 388, EN 381-7.
