PRODUCT FEATURES

MATERIAL: Top: leather/nubuck leather. Lining: mesh knitwear. Insole: replaceable. Sole: nitrile rubber with increased anti-slip properties (on steel and ceramic surfaces), resistant to diesel oil and high temperatures in the short-term contact (up to 300°C/1min), modern design of the sole removes the smallest liquid impurities, increases anti-slip properties and grip, and provides high footwear stability. **SAFETY CATEGORY:** O3 FO HRO SRC. Polymer (metal-free and flexible) puncture-resistant insole. Anti-electrostatic properties. Energy absorption in the heel area. Covered heel. Limited water penetration and absorption. **STANDARD:** ISO 20347:2011. Footwear doesn't contain any metal elements. Perfect for roof work and on other slanting surfaces where the maximum grip matters.
