

## BODY PROTECTION

## THERMAL WORK SOCKS

### PRODUCT FEATURES

**MATERIAL:** 70% polyester (Thermolite®), 25% polyester, 5% elastane. The Thermolite® fabric provides thermal insulation and comfort at low temperatures. The hollow-core Thermolite® fabric provides the best insulation properties at the lowest weight. The user stays dry, because the material dries up 20% faster than other insulating materials and 50% faster than cotton. Soft and flexible. Finished with a drawstring. Adjust themselves perfectly to the foot shape.
