

PRODUCT FEATURES

MATERIAL: Three-layer structure - polyester fabric / EVA / inserts: TPR, EVA, latex, 4 mm thick. The insoles have a soft and flexible TPR shock absorbing cushion as well as latex and EVA bottom inserts relieving the pressure of the foot on the ground. The structured surface supports and stabilizes the foot, preventing the occurrence of flat foot. The design of the insoles reduces foot fatigue and increases comfort while walking. The perforated surface provides air circulation inside the shoe. Perfect for those leading an active lifestyle.
