

## LEG PROTECTION

## SHOE INSOLES WITH ANTISTATIC THREAD

### PRODUCT FEATURES

**MATERIAL:** Three-layer structure - polyester fabric / EVA / inserts: latex, anti-electrostatic thread, 4.5 mm thick. The insoles have latex bottom inserts relieving the pressure of the foot on the ground. The design of the insoles reduces foot fatigue and increases comfort while walking. The perforated surface provides air circulation inside the shoe. The insoles are meant for footwear with anti-static properties.
