

EYE AND FACE PROTECTION

MESH PROTECTIVE GLASSES

PRODUCT FEATURES

MATERIAL: Metal mesh/plastic. No steaming effect thanks to lenses replaced with metal mesh. Special shape of earpieces, offering additional side protection and not reducing the field of vision. Openings on the earpieces ends, enabling an attachment of a string/suspension. Lightweight and robust structure ensuring high comfort of use. Designed for individual eye protection against mechanical damage resulting from solids. Protection against impact of particles weighing 0.86 g at 45 m/s speed. Application: gardening works, i.e. shrub trimming, lawn mowing etc., tree felling, manual and machine treatment of wood, metals, plastics, stones, and aggregates. Resistance class - F. STANDARD: EN 1731.
